

UAB "HALTEX"
ENVIRONMENTAL PROTECTION
POLITICS

10/03/2023

The concept of UAB "HALTEX" development activities is based on an orientation towards environmental protection, in accordance with the legal acts of the Republic of Lithuania and the requirements of the LST EN ISO 14001:2015 standard. The company specializes in the design and production of sportswear. In order to ensure the quality of activity management and service provision, successful and purposeful development, stable and competitive position in the market, company commits to:

- manage the environmental impact of the activities and resources used, follow the principles of sustainable activities;
- use natural resources sparingly, focus on the use of renewable natural resources; improve waste sorting solutions;
- work only with responsible partners, subcontractors, suppliers focused on environmental protection;
- encourage our customers and society to choose environmentally friendly solutions.

UAB "HALTEX" strives to organize activities in such a way that the negative impact on the environment is as small as possible:

- to comply with all environmental protection legal requirements applied by the state, carry out environmental protection prevention and control related to the company's environmental protection.
- allocate the necessary resources for the implementation of environmental protection goals and objectives.
- periodically analyze and assess the impact of operational processes on the environment, and control it.
- involve all employees of the company in the implementation of environmental protection activities.
- annually review and, if necessary, adjust the environmental protection policy.
